

BCR Chişinău extends its product portfolio and launches 24 BANKING services

Starting with May 20th, 2014 BCR Chişinău launches 2 new Internet Banking services: 24 BANKING for individuals 24 BANKING for companies. The clients, by using both packages will benefit from the advantages of new technologies of having remote access to banking services, 24 hours from 24, 7 days from 7, in the conditions of maximum security and increased comfort.

The new services are based on modern transactions platforms and offer the following basic functionalities:

- Online access to current accounts, deposits, card and credit accounts as well as view of blocked accounts;
- Real time detailed and complete view of account statements;
- Possibility to make payment in local and foreign currency, to make supplements on current account for loan payments, to make supplement on deposit or card account and vice versa from current account;
- Possibility to make salary payments on card accounts, to check and update the list of employees holders of salary cards;

"By launching new Internet Banking services dedicated to both companies and individuals we offer to our clients new opportunities to save time and resources in their relation with the bank and to benefit from modern, secured and flexible services based on high technologies.

For individuals we offer a new bank service in order to be closer to our clients and offer them comfort and accessibility to manage their revenues by performing remote transactions.

For companies we developed a different service, as compared to the existing Internet Banking solution, which allows to personalize the system by creating users and attaching rights to make needed operations, by creating own agenda of partners and suppliers, by performing payments under salary card projects and making remote transactions on current account, deposit and business card. A special focus was attracted to increase the security level by implementing digital signature for payments authorisation", said Natalia Codreanu, Executive Director Sales and Business Development at BCR Chişinău S.A.

The clients by choosing 24 BANKING services will benefit from free of charge connection and reduced fees on operations through the new Internet Banking systems, as compared to services provided in branches.
